

MD TANVEER ALAM

Full Stack Web Developer (MERN)

tanveerdev14@gmail.com | +91 82525 74386 | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

SUMMARY

Full Stack Developer with 2+ years of hands-on MERN Stack experience (including professional full-time experience), building and shipping production-grade SaaS and AI-integrated web applications. Skilled in REST API design, authentication (JWT, RBAC), MongoDB/MySQL data modeling, and responsive React interfaces. Proven track record delivering scalable features in fast-paced, cross-functional teams.

PROFESSIONAL EXPERIENCE

VinnPro Web Solutions Pvt. Ltd. — Full Stack Developer

Feb 2026 – Present

Ghaziabad, India (On-site)

- Developed and maintained 3+ production-ready full-stack web applications using React.js, Node.js, Express.js, MySQL, and MongoDB.
- Built and enhanced the Park Flow SaaS platform, implementing secure authentication, role-based access control (RBAC), and 10+ REST API endpoints for database-driven booking workflows.
- Contributed to Safe Drop AI, a multi-tenant SaaS for luggage and locker management, integrating real-time tracking and AI-powered features across multiple tenant accounts.
- Developed and maintained modules for a University Management System, covering student management, faculty management, attendance, and administrative workflows for multiple user roles.
- Integrated Cloudinary for secure file and image uploads and optimized backend APIs, improving response consistency across services.
- Collaborated with UI/UX designers and cross-functional teams using Git for version control to ship features on a sprint-based delivery cycle.

KEY PROJECTS

Safe Drop AI — Multi-Tenant SaaS Luggage & Locker Management

- Built a multi-tenant platform supporting real-time locker/luggage tracking for multiple client accounts, using React, Node.js, Express, MongoDB Atlas, and Socket.io; integrated Razorpay for end-to-end payments.

Park Flow SaaS — Parking Management Platform

- Built a SaaS platform for parking management with secure authentication, role-based access control, and 10+ REST API endpoints for real-time booking workflows using React, Node.js, Express, and MySQL.

E-Commerce Platform (MERN Full Stack)

- Implemented secure login, full product CRUD, and an end-to-end cart-to-checkout flow with REST APIs and a React front end.

SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Bootstrap, Responsive Web Design

Backend: Node.js, Express.js, REST APIs, JWT Authentication, RBAC, Middleware

Database: MongoDB, MongoDB Atlas, Mongoose, MySQL

Tools & Platforms: Git, GitHub, Postman, VS Code, Vercel, Render, Railway, Cloudinary

Other: API Integration, CRUD Operations, Authentication & Authorization, Problem Solving

EDUCATION

B.Tech, Computer Science & Engineering — Sobhasaria Group of Institutions

2024

CGPA: 7.0 / 10

CERTIFICATIONS

Full Stack Developer Program — AccioJob

- Hands-on training in the MERN Stack (MongoDB, Express.js, React, Node.js).
